

List for Mangrove Track, Akatarua Ra. 2/12/72
 All 2nd-growth forest following milling (orig. rimu forest). Mostly

Kamahi, with Dick. sp. co-dominant, or the latter in pure stands. Also gullies with hinu, rewarewa, and grassy flado. Some kamahi with dense growth of tawa saplings (up to 12') and some rimu & miro poles.
