

# Atriplex rosea

## BIOSTATUS

Exotic

## CONSERVATION STATUS

Not applicable

## CATEGORY

Vascular

## STRUCTURAL CLASS

Herbs - Dicotyledons other than Composites

## FLOWER COLOURS

Green, Yellow

## GENUS

Atriplex

## FAMILY

Amaranthaceae

## AUTHORITY

*Atriplex rosea* L.

## ENDEMIC GENUS

No

## ENDEMIC FAMILY

No

## YEAR NATURALISED

1969

## ORIGIN

S., C. and E. Europe

## ETYMOLOGY

**atriplex:** From an ancient Latin name whose derivation is uncertain, but a possible explanation is the name comes from the Greek a- 'without' and traphein 'nourishment' because many of these species grow in arid desert soils

## NVS CODE

ATRROS
