## 9. Tree ferns

## 10. Tree-like plants

# 11. Additional species

This leaflet illustrates over half the native trees and shrubs that are frequently seen around the Auckland Region, concentrating on those that are common in the Waitakere Range. Some species conspicuous in other parts of the region, but not the Waitakere Range include towai (*Weinmannia silvicola*) and hard beech (*Nothofagus truncata*) on the North Shore, and mangrove (*Avicennia marina*) in tidal creeks and estuaries.

This popular booklet was first published in 1977 as *Illustrations of common trees and shrubs of the Waitakere Range and of the Auckland area* - Auckland War Memorial Museum leaflet number 16. In a slightly revised and updated form it is available again to help you enjoy the bushy surroundings of the Auckland Region.

The author and illustrator, Alan Esler, was the DSIR regional botanist in Auckland for 20 years.
