SIMPLIFIED DESCRIPTION

Small bushy tree bearing many down-curving narrow tough leaves inhabiting higher rainfall areas. Leaves 5-16cm long by 0.5-2cm wide, on a short stem. Flowers are small with yellow or dark purple petals and scattered in groups along the twig. Fruit purple.

FLOWER COLOURS

Violet/Purple

ETYMOLOGY

melicytus: From the Greek meli (honey) and kytos (hollow container), referring to the staminal nectaries of the flowers. Literally “honey-cave”

lanceolatus: Shaped like a small lance head
