DISTRIBUTION

Probably endemic. There is still some doubt as to whether *S. lautus* is in Australia or not

FLOWER COLOURS

Yellow

PROPAGATION TECHNIQUE

Easy from fresh seed. An annual which makes a very attractive display when in full flower. Rather variable and some forms, particularly those with large capitula found around the South Wellington coastline could be an ideal native annual selection for an annual flower bed

ETYMOLOGY

senecio: From the Latin *senex* 'old man' (probably referring to the bearded seeds)

lautus: Handsome
