

Rubus laciniatus

COMMON NAMES

cut-leaved blackberry

FAMILY

Rosaceae

AUTHORITY

Rubus laciniatus Willd.

FLORA CATEGORY

Vascular – Exotic

STRUCTURAL CLASS

Trees & Shrubs - Dicotyledons

NVS CODE

RUBLAC

CONSERVATION STATUS

Not applicable

FLOWER COLOURS

White

YEAR NATURALISED

1899

ORIGIN

Origin unknown

ETYMOLOGY

rubus: From the Latin meaning bramble

ENVIRONMENTAL WEED (2024)

This plant is named in a list of 386 environmental weeds in New Zealand 2024 prepared by DOC. 759 candidate species were considered for inclusion on this new comprehensive list of environmental weeds in New Zealand. The species considered were drawn from published lists of weed species, lists of plants that must be reported or managed by law if observed, existing national and regional programmes and agreements for pest management, and species already managed by the Department of Conservation (DOC). Candidate species were then assessed to see if they were fully naturalised and whether they have more than minor impacts in natural ecosystems. Read the full report [here](#).
